Hermanus is home to the only whale crier in the world. Every year between June and November, he uses his kelp horn to call whale watchers to one of the most breath-taking sights on our Atlantic shores: the ocean’s giants at play.

Unit 5, Village Lane, Hemel-en-Aarde Village, Hermanus
Open: 7 days a week from 11:00 am
Bookings: 028 316 4626

OUR TASTING BOARD
CRAFT BEER AND DISTILLERS BOARDS AVAILABLE

HERMANUS Classic Dry Gin
Light citrus, fynbos undertones and Mediterranean (thyme, lemongrass and rosemary) style tonic

HERMANUS Classic Pink Gin
Classic dry gin with infused pinotage grape skins and extra coriander providing a fine balance between spice and citrus with a hint of sweetness brought on by the grape skins

ON TAP
# The Brewery Wine List

Wines from the Valley

Savour our hand-selected wines from the Hemel-en-Aarde valley. This famous wine route winds through valleys covered in multi-coloured vineyards. Hemel-en-Aarde (which means Heaven and Earth in Afrikaans) wine regions close proximity to the coast means that it enjoys a distinctive maritime climate. This produces impeccable quality and craftsmanship.

## Corkage Fee: 40 per bottle

Whale Facts!

- An adult whale weighs about 60 tons and is 16-18 metres long. They live for about 80-100 years.
- The heart weighs 450 kg and is 1.2 m in diameter.
- Hemanus has the only Whale Crier in the world!
- Whales come to Walker Bay to mate and calve, from June to November, every year.
- Their feeding grounds are 3000 kms away in Antarctica, and they take 6-8 weeks swimming, at 4-5 km/h to arrive in Walker Bay.
- They feed on micro-organisms called copepods, zooplankton about 20mm in length, and they consume between 1,500 - 3,000 kg per day. While they are in Walker Bay, there is nothing for them to eat and they survive on their blubber.

Whales are...

Breaching - when they lift their entire bodies out of the water in a spectacular leap.
Slapping - when they lift their heads and part of their body out of the water.
Lobtailing - when they slap their tails on the surface of the water producing a loud clap.
Blowing - the sound made when air is expelled from the lungs through the blowhole. You will see a spout of water vapour.
Grunting - when you hear a loud Bellowing sound. This happens often at night.

Southern Right Whale

* can weigh up to 80 tonnes
* length 14-18 m
* cruising speed approx: 3km/h
